

Agrivice Slug Pellet Trial 2007

Objective :

To determine which of the slug pellets currently available provide the most effective slug control .

Method :

9 different slug pellets were tested , applied across 24 metres and for a length of 100 metres and pellets assessed for spread ability , number of bait points per metre square , durability of the pellets and efficacy against slugs over time .The various assessments were scored on a 1-5 basis with 1 being poor and 5 being very good .

Results

Slug pellet	Spread ability	Number of bait points	Durability	Efficacy against slug attack	Total
Luxan Trigger	4	4	3	5	16
Draza Forte	4	4	3	5	16
Gusto	4	5	4	3	16
Luxan Deal	4	4	3	3	14
Prego	3	4	4	3	14
Luxan Red	4	2	3	2	11
Luxan Metaldehyde	3	3	2	3	11
Kimble	1	1	1	2	5
Allure	1	1	1	2	5
